

<h2>Air Quality Flag Program</h2>	<h2>Morning Announcements</h2> <p>Giving a morning announcement about the air quality flag color for the day will let everyone know the air quality conditions and the actions to take to reduce exposure to air pollution.</p>
 GOOD	<p>Good morning, fellow students! It's A GREAT day to have fun outside!</p> <p>The Air is clean and the flag is GREEN.</p>
 MODERATE	<p>Good morning, everyone! It's a YELLOW Day. It's a GOOD day to be active outside!</p> <p>Anyone who is super sensitive to air pollution should watch for symptoms.</p>
 UNHEALTHY FOR SENSITIVE GROUPS	<p>OK, everyone, it's an ORANGE day! The air is not as clean.</p> <p>It's OK to be active outside for a short time, like recess and physical education (PE).</p> <p>If you have sports practice today, take plenty of breaks and do less-intense drills.</p> <p>If you have asthma, follow your asthma action plan and keep your inhaler handy.</p>
 UNHEALTHY	<p>Good morning! Listen up, everyone! It's a RED day! The air is UNHEALTHY!</p> <p>The red flag means we can still go outside today but we need to take it a little easier.</p> <p>That means take more breaks and do less intense activities.</p> <p>We need to move our <b>longer activities</b> indoors (or reschedule).</p> <p>(If it's an ozone day, the morning is probably fine for all outdoor activities - check the <b>current</b> air quality conditions on <a href="http://AirNow.gov">AirNow.gov</a> before you go out.)</p> <p>If you have asthma, follow your asthma action plan and keep your inhaler handy.</p>
 VERY UNHEALTHY	<p>Good morning everyone! Today's air quality is VERY UNHEALTHY! It's a PURPLE Day! We'll be moving activities indoors (or reschedule them to another day).</p>
